THESE GOALS ARE TRACKED PUBLICLY

Every commitment above is a live KPI on the People's Portal from Day 1. Status: committed / in progress / delivered / failed. Published in real time. Updated monthly. Not after the term. During it. You will see exactly what was promised and what was delivered.

THE FISCAL COMMITMENT

Year 1: deficit ~\$8B (one tenth of current \$77B). Year 3: first surplus. Year 5: surplus of \$48B+. Debt trajectory reverses from Year 2. Interest payments stop compounding. By Year 15, federal debt eliminated.

THE ACCOUNTABILITY COMMITMENT

MMP will not make commitments it cannot measure. Every line above has a defined metric, a defined timeline, and a defined accountability mechanism. If we fail, it will be visible on the portal before we can spin it.

ONE MP — WHAT IT MEANS

Electing Brett Murrell on 9 May does not hand MMP government. It sends one independent MP to Canberra with a fully costed plan and a mandate to pursue every element of it. One voice for Farrer. That is how it starts.
