

THE MISSION

Build a sovereign, self-sustaining, high-technology, farming and industrial export nation of united families

SOVEREIGN

Resource rich
Processed here

SELF-SUSTAINING

Energy · Food · Water
Built from within

HIGH-TECH

AI · Space · Data
Made in Australia

UNITED

All groups
One nation

WHAT MMP WILL BUILD

INDUSTRIAL · MINING · THE REL DEAL

Australia sits on the most valuable resource base on earth. The REL: one payment, locked rates 20 years, 3-6 month approvals, 6c/kWh power, SBC infrastructure at cost. Fair return to the nation.

HIGH-TECH · FARMING · FAMILY NATION

AI, advanced manufacturing, clean energy, space, sovereign data. Australia feeds itself and the world — Farmers First, Bradfield water, food sovereignty. Affordable homes. Real parental

ALL FAITHS WELCOME — LOVE NOT HATE

Every faith that teaches love, compassion, and dignity has a home here. Separation of church and state — but the moral foundation of the great faith traditions is the foundation this platform is

THE AUSTRALIAN NEW DEAL

INDUSTRIAL NATION — REL FUNDS EVERYTHING

\$40-80B/yr REL on sovereign resources. Funds SWF, SBC corridors, tax reduction, Citizen Dividend. One payment. No disputes. Locked 20 years. Mining companies get certainty, speed, and the cheapest industrial power on earth.

SELF-SUSTAINING — ENERGY · FOOD · WATER

1,000GW desert solar. SBC water pipeline from the monsoon north. Food sovereignty — processed here, not exported raw. Every megawatt, every litre, every tonne value-added before it leaves Australia.

HIGH-TECHNOLOGY NATION

AI Institute on the Visionway corridor. Sovereign data centres. CSIRO rebuilt as a commercialisation engine. Space launch facility. Australian data stays in Australia. The knowledge economy doesn't have to be coastal.

FARMING NATION — FARMERS FIRST

Farmers First legislated as governing principle. Bradfield water vision — 30GL south per year. Food sovereignty as national security. Abattoir access restored. Supermarket margins monitored. The farmer gets a fair price.

FAMILY NATION

Affordable homes. \$10/hr childcare. 26 weeks parental leave. \$0 GP visit. Granny flats as-of-right. Free relationship counselling. Country towns with schools, medical, community, and purpose. The family is the test for every policy.

UNITED NATION — ALL GROUPS

Not divided by class, region, or background. United by sovereignty, honesty, fairness, family, and the belief that government should tell the truth. The people person — all groups, united. MMP contests Farrer 9 May 2026.

LEAN EFFICIENT GOVERNMENT

22 departments reduced to 7. 60 ministers to 8. Red tape cut systematically. Every regulation tested: does the benefit to the community clearly outweigh the cost to the individual? If not, it goes.

FISCALLY RESPONSIBLE

Budget near-balance Year 1 (deficit ~\$8B vs current \$77B). First surplus Year 3. Debt trajectory reversed Year 2. REL funds the program — no new debt. The fiscal model is honest about Year 1 and ambitious about Year 5.

EXPORT NATION

Clean energy via Asia Link. Green aluminium, steel, hydrogen — made here, exported everywhere. The cleanest food on earth at premium prices. Compute export to Asia. Australia sells what it makes, not just what it digs up.

SOVEREIGN WEALTH FUND

Norway built \$1.7 trillion from North Sea oil. Australia has \$0. REL revenue flows into the SWF from Year 1. Citizen Dividend from Year 5 — \$400-600/person, tax-free, growing. Every Australian gets their share.

HEALING NATION

20-30 dedicated healing towns — drug-addicted, mentally ill, long-term homeless. Farm, purpose, community — not institutions. Hospice with dignity. Country Care Communities. The lost and broken are brought home.

SOVEREIGN BUILDER — THE MISSION

"Build a sovereign, self-sustaining, high-technology, farming and industrial export nation of united families — transitioning our energy base efficiently, governed with honesty and courage." — MMP Federal Platform

THE AUSTRALIAN NEW DEAL — WHAT CHANGES

CURRENT — THE FAILURE

MMP — THE MISSION DELIVERS

Resources extracted raw, profits offshore, \$0 sovereign wealth fund.

REL \$40-80B/yr · SWF built to Norwegian scale · Citizen Dividend Year 5

Industrial power \$100-150/MWh — industry leaving, manufacturing closing.

SBC corridor power 6c/kWh · Boyne Island saved · Green aluminium globally competitive

Coastal cities unaffordable · inland empty · no infrastructure built.

181 corridor towns · \$150/wk rent · Maglev · water south · inland cities

Tax-free threshold \$18,200 frozen since 2012 · bracket creep every year.

\$50K tax-free day one · 30% flat falling to 20% · workers keep more

No long-term energy plan · coal closing by mandate · grid fragile.

1,000GW solar · east-west grid · net zero as market outcome · not mandate

No sovereign payment rail · no AI data sovereignty · no spaceport.

Sovereign data centres · Asia Link · Continental Crossroads Spaceport

Regional towns dying · FIFO takes wages · no services · farm debt \$140B.

Corridor towns · SBC infrastructure · Farmers First · water security

Federal debt \$600B · \$20B/yr interest · structural deficit every year.

Budget near-balance Yr1 · surplus Yr3 · debt falling from Yr2

No free conscience vote · party machines · donors direct policy.

Every vote a conscience vote · no donors · full platform published

Government manages the news cycle. Nobody manages the country.

5-year, 10-year, 20-year national plans · People's Portal · tracked live

"The subtitle is 'Sovereign Builder.' That is the mission. Return power over Australia's future to the people of Australia." — MMP Federal Platform
