

CORE VALUES

Ten values. One test: does this make Australia better for the people who live in it?

SOVEREIGNTY

Australia first
No foreign direction

TRUTH

Name it
Fix it

FAMILY

Foundation
Every policy tested

COURAGE

Say it
Do it

THE TEN VALUES — IN FULL

SOVEREIGNTY · TRUTH · ACCOUNTABILITY

Australia controls its own resources, infrastructure, energy, food, and future. No foreign government directs Australian policy. Truth is the precondition for everything — you cannot fix what

FAMILY · COMMUNITY · HEALING

The family is the foundation of Australian society — every policy tested against it. The best places to raise a family are country towns. MMP builds more of them. Healing is not charity — a person

DIGNITY · FAIRNESS · THE LAND · COURAGE

The person on JobSeeker is not lazy. The NDIS recipient is not a burden. Fairness runs both ways — respect the mining company, respect the nation. 65,000 years of custodianship. Courage is

THE VALUES — WHAT THEY MEAN IN PRACTICE

SOVEREIGNTY

Australia processes what it extracts before exporting. Infrastructure owned by Australians. Energy policy made in Canberra, not Washington. No foreign government or multinational corporation directs Australian policy.

TRUTH

The meth epidemic has been destroying regional communities for thirty years. Governments have known. Truth is the precondition for everything. You cannot fix what you will not name. You cannot fund what you will not cost honestly.

FAMILY

The family is not a unit of economic production. Every policy in this platform is tested against one question: does this make it easier or harder to raise a family in Australia?

COMMUNITY

The best places to raise a family are country towns. They have been hollowed out and underfunded. MMP builds more of them — along SBC corridors, powered by renewable energy, anchored by healing and purpose.

HEALING

The veteran who cannot sleep. The farmer thinking thoughts he has not told anyone. Healing is not charity — it is the most fiscally rational investment a government can make. A person healed represents a \$120,000-\$260,000 fiscal swing per year.

DIGNITY

The person on JobSeeker is not lazy. The NDIS recipient is not a burden. Dignity means the system treats every Australian as an end in themselves, not a means to a budget outcome. Debt notices in plain language. Humans review automated decisions.

FAIRNESS — A DUAL RELATIONSHIP

The mining company that employs Australians and builds infrastructure deserves respect — MMP delivers fast approvals, locked rates, sovereign infrastructure at cost. In return, a fair share of what comes out of the ground. Everyone wins when the deal is honest.

THE LAND

Australia rests on 65,000 years of custodianship. The land is not a resource to extract and export. It is a country to inhabit, restore, and honour. The SBC corridors restore degraded land. The healing towns practise regenerative agriculture.

ACCOUNTABILITY

Power without accountability is the definition of corruption. Those who hold public trust and betray it face consequences under MMP. Named. Investigated. Prosecuted where evidence supports it. The nation is not for sale.

ALL FAITHS WELCOME — LOVE NOT HATE

Every faith that teaches love, compassion, and dignity has a home here. Separation of church and state — neither directs the other. But the moral foundation of the great faith traditions is the same foundation this platform is built on.

COURAGE

Every policy in this platform will be called radical by someone. Courage is not the absence of doubt. It is the decision to act on what you know to be right despite the consequences. MMP says what other parties will not. Names what everyone sees but nobody will name.

THE VALUES ARE THE TEST

"Values are not slogans. They are the test applied to every decision. When a policy is proposed, when a deal is offered, when a difficult choice must be made — the values are the measure." — MMP Federal Platform

THE VALUES — APPLIED TO REAL DECISIONS

THE VALUE	WHAT IT MEANS IN PRACTICE
SOVEREIGNTY — Australia controls its own future.	REL · SBC built · sovereign data · no foreign ownership of critical infrastructure
TRUTH — Name what is broken. Cost what it takes to fix it.	Full platform published · every number · no spin · fixed publicly if wrong
FAMILY — Every policy tested against family formation.	\$10/hr childcare · 26 weeks parental leave · \$0 GP · granny flats as-of-right
COMMUNITY — Country towns are the best places to live.	200 corridor towns · \$150/wk rent · 6c/kWh power · Maglev · healing centre standard ng
HEALING — The lost and broken are brought home.	Healing centres in every corridor town · farm, purpose, community · hospice dignity · prevention dignity · no institutions
DIGNITY — Every Australian is an end in themselves.	JobSeeker to 65% of minimum wage · plain language · humans review automation
FAIRNESS — The deal runs both ways.	REL for the nation · certainty and speed for industry · workers keep more income
THE LAND — 65,000 years of custodianship honoured.	SBC corridor revegetation · 1 billion trees · seed bank · fenced conservation zones
ACCOUNTABILITY — Public trust is sacred.	Cancel AUKUS nuclear component · REL at full rate · healing towns · free conscience vote · no secret deals
COURAGE — Say what others will not. Do what needs doing.	Cancel AUKUS nuclear component · REL at 50% · healing towns · free conscience vote

"Values are not slogans. They are the test applied to every decision. When a policy is proposed, when a deal is offered — the values are the measure." — MMP Federal Platform
